BEAUTY SECRETS!

Where she gets her good looks, her healthy skin, her pink cheeks, is known to every one, because it is apparent that it is not due to cosmetics, paint and powder. But the true womanly beauty comes from good health, and this good health is a woman's secret.

Health comes with good physical machinery and good spirits, an active digestion. A body free from pains and aches comes with a tonic known for over fifty years as the best "temperance" tonic and nerve for woman—namely, Dr. Pierce's Favorite Prescription. It can be obtained in any drug store in liquid or tablet form, or send 10c to Dr. Pierce Invalids' Hotel, Buffalo, N. Y.

Cleansing of the intestinal tract is important. Take castor oil or select a vegetable pill. Such a one is composed of May-apple, leaves of aloe, root of jalap, and made into tiny sugar-coated pellets, to be had at every drug store as Dr. Pierce's Pleasant Pellets.

Smoke Sultana

THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.
